

EDUCATION

SAN FRANCISCO STATE UNIVERSITY 2023 to Present
Data Science and Artificial Intelligence, M.S.
GPA: 4.00
Anticipated Graduation: May 2025

SAN FRANCISCO STATE UNIVERSITY 2018 to 2023
Computer Science, B.S.
GPA: 4.00
Mathematics: Advanced Studies, B.A.
GPA: 3.98

RESEARCH & FELLOWSHIPS

Graduate Researcher Aug 2023 to Present
SAN FRANCISCO STATE UNIVERSITY – San Francisco, CA
Principal Investigator: Dr. Hui Yang
AdvisingGPT: Foundation Models for Student Advising
An exploration of using proprietary and open-source foundation models to provide automated course equivalency evaluation and personalized program roadmaps to maximize student success rates. The techniques employed include: prompt engineering, in-context learning, and instruction fine-tuning of foundation and embedding models; document-level embeddings search and ranking; and retrieval augmented generation.

Program Lead/Graduate Researcher Jan 2023 to Present
SAN FRANCISCO STATE UNIVERSITY – San Francisco, CA
Principal Investigator: Dr. Anagha Kulkarni
Artificial Intelligence Scholarships that Improve Academic Achievement, Retention, and Career Success (AI-STAARS)
Develop and lead a comprehensive support system to enhance student success through foundational knowledge reinforcement, intensive advising, and engaging activities. This initiative includes a weekly lecture and workshop series, a weeklong programming bootcamp to mitigate learning loss, and a 10-week accelerated summer course in Machine Learning and Artificial Intelligence. Additionally, research is being conducted to foster students' sense of belonging and identity in Computer Science and its impact on retention and success. Qualitative studies focus on metacognition through comparative analysis of in-class performance and students' self-assessed understanding, with data collected via interviews, surveys, and observations.

Research Engineering Intern Jun 2022 to Aug 2022
COFENSE INC. – Leesburg, VA
Research Supervisor: Chip McSweeney, Senior Research Engineer
Phishing Emails: Clustering and Analysis
An investigation of clustering for the early detection and categorization of phishing emails with an emphasis on computational speed and performance. Optimizations to Python C extensions for parsing and analyzing emails reduced memory usage by 95% and improved data utilization by 5%. Additionally, thread-based and process-based asynchronous parallelization of the Python code reduced processing time by 80%. Trade-offs between dimensional reduction (PCA) and data precision were also analyzed.

Independent Study and Research Literature Review Jan 2022 to May 2022
SAN FRANCISCO STATE UNIVERSITY DEPARTMENT OF MATHEMATICS – San Francisco, CA
Research Supervisor: Dr. Serkan Hosten
Graphical Models for Brain Networks
Studied and explored *Graphical Models* by Steffen Lauritzen which culminated in an examination of the research completed by Ranciati, Saverio et al. in "Fused graphical lasso for brain networks with symmetries."

NSF REU Scholar and Researcher

Jun 2021 to Aug 2021

UNIVERSITY OF HOUSTON DEPARTMENT OF COMPUTER SCIENCE – Houston, TX

Funding by the National Science Foundation

Principal Investigator: Dr. Ernst Leiss

Research Supervisor: Dr. Ionnis Pavlidis

Frontiers of Data-Driven Computing REU

Developed and implemented multi-threaded retrieval algorithms for over 10 million records of affective research data (documents and authors) from Scopus, PubMed, and Web of Science. Performed exploratory clustering and co-occurrence matrix analysis of retrieved data to facilitate the investigation of a quantitative history of affective research.

Innovation and Entrepreneurship Fellow

Sept 2020 to May 2021

SAN FRANCISCO STATE UNIVERSITY LAM FAMILY COLLEGE OF BUSINESS – San Francisco, CA

Faculty Director: Dr. Sybil Yang

COB Innovation and Entrepreneurship Fellowship

Collaborated with co-founders to design and develop a software-based test preparation platform for disenfranchised students.

Undergraduate Research Assistant

Apr 2020 to Jun 2020

SAN FRANCISCO STATE UNIVERSITY DEPARTMENT OF MATHEMATICS – San Francisco, CA

Research Supervisor: Dr. Shandy Hauk

Remote Instruction Pedagogy in Mathematics

Provided an academic literature review of research in pedagogical best practices for remote instruction. This review was to inform new research in remote instruction in response to the COVID-19 pandemic.

Undergraduate Research Assistant

Nov 2019 to Jan 2020

SAN FRANCISCO STATE UNIVERSITY DEPARTMENT OF MATHEMATICS – San Francisco, CA

Research Supervisor: Dr. Alexandra Piryatinska

Change-point Analysis Algorithm Development

Attended workshops on numerical methods and statistical theory to prepare for research in change-point analysis and algorithm development. Reviewed existing change-point analysis study and began adapting Matlab code to Python

CONFERENCE PUBLICATIONS

“Metacognition in Computer Science Learning: Perception vs. Reality,” National Association of School Psychologists Annual Convention. Seattle, WA, USA. Accepted and forthcoming, February 2025.

“Foundation Models for Course Equivalency Evaluation,” IEEE International Conference on Data Mining. Abu Dhabi, UAE. Accepted and forthcoming, December 2024.

HONORS & AWARDS

First place final presentation – Frontiers in Data-Driven Computing REU, University of Houston Aug 2021

Finalist – Entrepreneurship Symposium Innovation Pitch Competition, San Francisco State University May 2021

Dean’s List, San Francisco State University 2018, 2019, 2020, 2021, 2022, 2023

LEADERSHIP

ASSOCIATION FOR COMPUTING MACHINERY (ACM), Student Chapter at SFSU Sept 2019 to Present

Graduate Mentor, May 2024 to Present

Treasurer, May 2023 to May 2024

President, Jan 2022 to May 2023

SF HACKS

May 2022 to Present

Graduate Mentor, May 2024 to Present

Treasurer, May 2022 to May 2024

CS{RESEARCH} CLUB

Aug 2023 to Present

President/Founder, Aug 2023 to Present

ARTIFICIAL INTELLIGENCE CLUB
Treasurer, Aug 2023 to Present

Aug 2023 to Present

KOREAN STUDENT ASSOCIATION
President, Aug 2024 to Present

Aug 2024 to Present

EMPLOYMENT HISTORY

Program Lead/Graduate Researcher

Jan 2023 to Present

SAN FRANCISCO STATE UNIVERSITY - San Francisco, CA

Artificial Intelligence Scholarships that Improve Academic Achievement, Retention, and Career Success (AI-STAAARS)

Graduate Researcher

Aug 2023 to Present

SAN FRANCISCO STATE UNIVERSITY - San Francisco, CA

Research in Foundation Models for Student Advising

Mathematics Program Liaison

Jan 2024 to May 2024

CS Program Liaison

Aug 2023 to Dec 2023

SAN FRANCISCO STATE UNIVERSITY - San Francisco, CA

Center for Science and Mathematics Education (CSME)

Facilitator

Jan 2021 to May 2023

SAN FRANCISCO STATE UNIVERSITY - San Francisco, CA

Center for Science and Mathematics Education (CSME)

Undergraduate Teaching Assistant

Aug 2019 to Dec 2020

SAN FRANCISCO STATE UNIVERSITY - San Francisco, CA

Department of Mathematics

Financial Center Manager, AVP

2017 to 2018

BANK OF AMERICA - Belmont, CA

Founder/CEO

2012 to 2017

KINDRED ENTERPRISES INCORPORATED - San Francisco, CA

PROFESSIONAL MEMBERSHIPS

SOCIETY FOR INDUSTRIAL AND APPLIED MATHEMATICS (SIAM)

ASSOCIATION FOR COMPUTING MACHINERY (ACM)

NATIONAL ASSOCIATION OF SCHOOL PSYCHOLOGISTS (NASP)

INSTITUTE OF ELECTRICAL AND ELECTRONICS ENGINEERS (IEEE)

SKILLS & COMPETENCIES

LANGUAGES: Python, Java, C/C++, JavaScript, HTML, CSS, MySQL, Matlab, R

WEB FRAMEWORKS/ENVIRONMENTS: Node.js, Express.js, React.js, Handlebars.js

LIBRARIES: PyTorch, Transformers, Sentence Transformers, Pandas, NumPy, Pydantic, scikit-learn, Matplotlib, Scrapy, BeautifulSoup, Plotly, Dash

DEPLOYMENT/CLOUD COMPUTING: AWS (EC2, S3, and Route53), Google Cloud (Compute Engine, Storage, Domains), Google Analytics, Oracle Cloud Infrastructure, NGINX

DEVELOPMENT PLATFORMS: Docker, Git, Jupyter, Conda

OTHER: \LaTeX , Adobe Creative Suite (XD, Illustrator, InDesign, Photoshop)

Mark S. Kim
